Profile

I am working as a semi-professional Electrical Engineer focused on systems control, industrial automation, PLC Programming and Smartening the industrial automation network. I'm responsible for designing, developing, and implementing solutions to control dynamic systems.

I have my own workstation that has up-to-date facilities that allow me to handle any kind of work related to my projects.

I am very obsessed with my work and I carry out the assigned projects with the highest quality and execution of the most delicate details.

This is the reason for achieving perfection.

Education

2016 – 2023
Shiraz, Iran

Bachelor's degree, Electrical and Electronics Engineering

Shiraz University

B.Sc Student of Electrical Eng. and Systems Control

Professional Experience

Feb 2023 – Jul 2023
Shiraz, Iran

Teacher Assistant

Shiraz University

Dr Arefi's Assistant for Linear Control Course

Feb 2023 – Sep 2023
Shiraz, Iran

PLC Programmer

Shiraz University Advance Control Lab (ACL)

PLC Programming in the branch of the intelligent industrial automation network
